

Bella Shape

“Treats the infinitely small with infinitely great success!”

Nowadays, both Men and Women are looking for quick, affordable, and non-invasive ways to maintain their youthful appearance.

Bella Shape® delivers delicate, yet efficient **body and face treatments** that are suitable for every kind of skin. In fact, since it stimulates the connective tissue, Bella Shape is able to deliver **three simultaneous actions**:

- **Draining:** allows the drainage of excess liquids and metabolic waste.
- **Remodeling:** enhancing lipolysis, which allows a targeted action on localized fat deposits and cellulite.
- **Toning:** increases the stimulation of fibroblasts, enhances the production of collagen and elastin and increases tissue tightening, and elasticity. (A fibroblast is a type of cell that synthesizes the extracellular matrix and collagen, the structural framework for our tissues, and plays a critical role in wound healing.)

Bella Shape® produces a genuine skin workout and can be used to treat the entire body, including the most delicate areas (like the eyes, bust, neck, inner arms, inner thighs), with no pain or side effects.

Bella Shape® is the only device equipped with a **two-heads hand piece**, and uses a patented technology to achieve great results in a shorter amount of time.

The customizable settings with various applicators and heads allow every treatment to be tailored to each individual and is therefore very efficient and extremely pleasurable.

Treatments

Bella Shape treatments indicated for body contouring through the liquefaction of localized fat deposits; as well as skin tightening on any part of the body such as, upper arms, abdomen, back hips, inner thighs, outer thighs, knees, calves, and ankles.

Bella Shape treatments for skin tightening and wrinkle reduction of the eyes, jaw line, entire face and neck.

Patients with irregularities, or uneven areas **after a previous liposuction**, or other surgical procedures, such as abdominoplasties are excellent candidates.

Vascular and Lymphatic: lymphoedema, venus insufficiency. Regular lymphatic massage will keep your body working optimally and is part of our wellness program.

Reduces burn and scar appearance. Smoothens stretch marks after pregnancy on stomach and thighs.

Bella Shape guarantees optimum results even in the most difficult of cases, as shown by numerous scientific studies and confirmed by countless satisfied customers.

Results are noticeable from the first few sessions and monitored by specially trained operators, via dedicated reference graphs, measurements and photographs.

A **check-up conducted after every 5 sessions** serves to assess the progress being made toward the expected goals.

A complete cycle of treatment is needed, generally 10-15 sessions depending on each individual person, to ensure that the desired outcome will be achieved. The normal practice is to schedule 2 or 3 sessions per week. We have treated daily with wonderful results, in the event of a special occasion such as wedding, party, etc.

Thereafter, 1-2 sessions per month will be sufficient to maintain the results achieved.
